## Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

- Local amenities are some distance away with no public transportation to sustain an increase in demand. Local GP & school are at the nearest in Leamington & Radford & cannot accept an influx of new patients / pupils. This will put an enormous amount of pressure on those services.
- The rural location does not have adequate provision for main drainage to accommodate the proposed development. Sanitation would suffer as a result.
- The proposed site is located along a network of roads at high risk from accidents with warning sign already highlighting

this issue.

to the proposals on the following grounds -

Development here would only exacerbate this issue, ~~particularly~~

- The compulsory purchase of an existing site employing locals would have a detrimental effect on the local community. At a time where employment is suffering, such a proposal is highly inappropriate with regards to local economy. Growth from the existing business is anticipated to grow over the coming years particularly with the proposed HS2 route providing further growth.
- There are other sites which are far more appropriate to development. The above objections are by no means an exhaustive list but are a selection of the main objections which should

seriously be considered.

Do you have any other suggestions for land within Warwick District that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification?. If so, please give the location and the landowners details below:

Non-employment sites  
Brownfield / redundant sites.
