Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

The access to GPs and schools are already at saturation point. Public transport, although buses run twice an hour, there are no paths or safe areas to stand whilst waiting for the buses. There are no pull in areas for the buses therefore local traffic or passing traffic will be unable to overtake the buses thereby causing congestion on the roads.

The Fosse way is a accident blackspot. It already has speed cameras, traffic calmers, signs telling you to slow down, signs telling you to think bikes and dangerous crossroads where people have been killed. To allow a Travellers site to be allowed to be built on the Fosse Way will increase traffic to an unsustainable level.

The Fosse Way has historical value to the area.

The Warwickshire Exhibition centre is an aid to the local economy bringing in visitors from all over the UK. This means that the local shops, bars, restaurants, hotels and guest houses benefit from the shows that are held at the centre.

The travellers site will be a blot on the landscape as whichever way you are coming or going from Radford Semele the site will be in full view as it will be in a valley.
