The policy in the Draft Local Plan will list the criteria by which Gypsy and Traveller sites will be judged for suitability and sustainability. These are the criteria:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Avoiding areas where there is the potential for noise and other disturbance;
- Provision of utilities (running water, toilet facilities, waste disposal, etc);
- Avoiding areas where there could be adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please give your views about site suitability below with reference to this list of criteria.

Which site are you responding to?

Comment

Please set out full details of your objection or representation of support with reference to the criteria above.

Many people have returned to Baginton (including my wife & myself) for a quiet, peaceful, carefree last move. We are threatened by the monstrous GATEWAY Initiative, expansion of the Airport, a Faith school all at the expense of the previous Green Belt which this chameleon of a government formerly pledged to protect! Some hopes!

What are the main reasons for your objection to this site?

I feel that people have a right to be consulted on their own land. I have been consulted for a site, but I have not been consulted on this site. I am therefore, very disappointed. I have the experience of the Local Plan, and I know that this is a very important issue. I feel that I need to protest! Some people...

Do you have any other suggestions for land within

Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the land owner's details below:

9.00 **The Travellers' Secret Cash Stash** Paul Connolly investigates fraudsters in the Irish traveller community who journey across Europe illegally acquiring hundreds of thousands of pounds. (T)

10.00 **Big B** Highlights of the past

I have no doubt there are perfectly well behaved, decent travellers about; however, much recent, local evidence suggests otherwise in many cases. E.g. Trashing of sites, resulting in very expensive clean up operations (admittedly, usually when they have moved on ~) but I wonder if that untidy attitude exists wherever they are?

It is a very un-Christian point of view but on balance we would rather not have a site here, Thank you very much
