Dear Sirs,

Re Draft Gypsey and Traveller Site Options

Dear Sir,

As a resident of Bishops Tachbrook, I wish to place on record my strong objections to the proposed plans within the area near to Bishops Tachbrook. As a council tax payer I hope that my objections will be heard and taken into consideration as there are potentially seven sites within the local area which seems very un- proportionate. Are the district council trying to force unwanted sites on small local communities which may be unable to defend the locals wishes?

In accordance with the considerations for site requirements I would comment as follows.

Site 4) Is very remote from major developments.

Site 5) Has access only on to a very busy road, no pedestrian access and a potential visual impact on the approach to Historic Warwick. Listed Buildings are also on the site.

Site 6) Very remote from main Centres and no means of pedestrian access.

Site 9) Has access only on to a very busy road, no pedestrian access and a potential visual impact on the approach to Historic Warwick. Listed Buildings are also on the site.

Site 10) Close to guide dogs for the blind national breeding centre with potential disruption to valuable life changing work done by this organisation.

Site 15) Site located on the banks of the Tachbrook which could lead to a potential chance of contamination, given that the proposed Gypsy Traveller site may be used as a place of work.

In general these plans being looked to be forced upon the residents of Bishops Tachbrook are unsuitable due to the remoteness of the sites, away from major centres. The access are on major roads with no means of pedestrian access. The site could place undue pressure on infrastructure and services. Bishops Tachbrook School is always at capacity and may not be able to provide the infrastructure required to support the needs.

I wish to strongly object to these plans and place my views on record.

Yours Sincerely,
