Part B - Commenting on the Gypsy and Traveller Site Options

If you are commenting on multiple sites you will need to complete a separate sheet for each representation

Sheet of

The policy in the Draft Local Plan will list the criteria by which Gypsy and Traveller sites will be judged for suitability and sustainability. These are the criteria:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Avoiding areas where there is the potential for noise and other disturbance;
- Provision of utilities (running water, toilet facilities, waste disposal, etc);
- Avoiding areas where there could be adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please give your views about site suitability below with reference to this list of criteria.

TRAVELLER SITE

- The proposed traveller site at Oaklands Farm has at least two points of pedestrian access directly onto the canal bank. The establishment of a site which may well become unsightly and which is sure to contain a number of noisy dogs, near the towpath will not enhance this natural and beautiful environment.
- Five pitches will, in my opinion, result in more than five families living there and I suspect that, in practical terms, little would be done to remedy this let alone prevent it in the first place.
- In my experience, a gypsy/traveller site would substantially change the character of, and be detrimental to the area.
- This area is also prone to flooding.
- There would be a strain on the infrastructure of the area.
- Proximity to a petrol station i.e. danger and health risks.
