Ref Traveller Site Options - Planning Application
for Sites G703, G704, G702

I wish to strongly object to sites on or near the
Fore Way due to road safety and dangers with
safe access onto this high speed road, already a big
accident hazard, and a Traveller site would be very dangerous.

Also I am concerned about the adverse impact on
historical site and Roman remains, and the potential
for disruption to housing the character of the rural
area and local landscape, and pressure on Harbury GP
surgery.

Please choose a more appropriate site
elsewhere. Sincerely,
