

22nd July 2013

We would like to put forward our objections to the proposed Gypsy/Traveller site GTO4,

- 1/ Owing to the history of the Fosse Way this does not seem to be an appropriate position for a Travellers site. As there is most likely considerable archaeological remains in the area which would be destroyed by the development, has anyone actually given any consideration to this??
- 2/ The area is prone to flooding.
- 3/ Facilities in Harbury village i e Doctors surgery. School etc would be stretched to cope with the extra intake.
- 4/ The site has no mains drainage, electricity etc.
- 5/ Access in and out of the proposed site would be dangerous, and would cost huge amounts of money. The Fosse Way is a very fast moving, busy road, and tends to be quite an accident spot.
- 6/ Recent housing development in the area has been very controlled and in Harbury village has only been made available to people with connections to the village i e Born Here, Parents living here or work here.

Sincerely

PLANNING
