SCANNED CC CR PD MA PREF GEN DIS		

I am writing to object to the proposed gypsy and traveller sites in Baginton (ref G101 & G107) these are inappropriate developments in the Green Belt. The consultation documents identify major negative effects as to the sites being located on Green Belt land and being adjacent to Coventry airport, the industrial park and in the vicinity of several sewage treatment works, with the associated noise, light and air quality effects. The proposed sites are not within easy reach of local facilities such as doctors, schools hospitals etc and there is poor public transport provision. Access from the sites to the village along the grass verges are not suitable for pushchairs wheelchairs or use by the infirm. There is already three traveller site within a few miles of those proposed in Baginton at Siskin Drive, Brandon Lane and Oxford. Therefore the proposed sites

donot satisfy the Local Plan Strategy

of distributing development across the District. The Proposal Site on the Stoneleigh Road is an private land, which includes Part of the local nursery. It is unacceptable to adversely impact a rural business by forcing them to give up part of their land for such a development when there are more suitable sites. The alternative sites proposed to the South of Warwick district are preferable options to the two proposed in Baginton Parish as they are outside the Green Belt, have better access to facilities, would not have an adverse impact on a rural business and would not lead to an over-concentration of sites in one area. I was born and raised in Baginton as was many generations of my family before me and I'm sure they would as I am, be disgusted to find myself having to fight for the preservation of a nice quiet pleasant place I call home. I appreciate that Baginton has become busier and noisier however that still

doesnot excuse your despicable proposals  
especially to force good honest working  
familys out of business to give up their  
land so in all probability parasites can  
move onto their land who do not pay a  
penny to society and please do not  
insult our intelligence by telling us  
they do pay! we recently had experience  
of Gypsy Traveller children in Baginton,  
they stole numerous items from the  
shop, they then went onto <sup>to</sup> terrifying  
the innocent children at our park!  
their dogs are let to roam free and  
faul wherever they wish. If this opes ahead  
we will not have any shop it will close  
as a result of them moving here also  
the public house near the proposed site  
is said to be closing if it opes ahead.  
We havent got much but we will have  
nothing at all. What has Baginton done wrong?  
Do you sleep soundly at night? because we don't.  
People have tried to take its heart before but  
Never its Soul as well!!
