Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

Radford Sewer does not have a Surgery
The local School cannot be safely accessed on foot
as there are no pathways on the main road into
RADFORD. THE AREA PROPOSED IS BY A HIGH RISK
TRAVEL ROUTE WITH MORE THAN 12 SERIOUS ACCIDENTS
IN RECENT TIMES.

There are no utilities to the proposed site this would
add further costs to the development, it would also
have a negative impact on the local landscape.

This area is listed on the Archaeological Register as its
of historical importance. plus there is protected Ancient
woodland close by this would have an adverse effect
on the wildlife.

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.

to the proposals on the following grounds -

The main reason for my objection is the Rose way is a High Risk travel route and there have been many serious accidents over the last few years, vehicles travel fast and traffic flow is high plus there are no footpaths or cycle ways! this would make the area dangerous for families.

The site is on the Archaeological Register with ancient pottery found in a recent search plus the site is on a Historic Toll site from medieval times.

This would have an adverse impact to the local area and put pressure on the local infrastructure and our community.

Our local school is already under pressure, so with this proposal and new houses being built in the local area would make it impossible to function.

Please continue on a separate sheet if necessary

Do you have any other suggestions for land within Warwick District that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the landowners details below:

Guidance on Making Representations

- You may withdraw your objection at any time by writing to Warwick District Council, address below. It is important that you include your name and address as anonymous forms cannot be accepted. If your address details change, please inform WDC in writing.
- All forms should be received by **5.15 p.m. on Monday, 29 July 2013**
