Dear Sirs or Madam,

We are writing to voice our protest at the density of the proposed Gypsy / Traveller sites being proposed in the vicinity of Bishops Tachbrook in comparison to North Leamington and Kenilworth.

The school is already at full capacity with intakes from Warwick Gate, traffic will also be increased especially with the new houses proposed for the area. Can the water and sewerage systems cope?

At peak times there is always a problem exiting on to Banbury Rd. with the traffic from the Gaydon Motor factory. Two Traveller sites on that road will only increase the problem.

Hoping you can consider these concerns

Yours sincerely,
