

Subject: Gypsies and Traveller sites within Bishops Tachbrook Area
Date: 25 July 2013 22:28

I, Emma Hartley object to the proposed Gypsy and traveller GT03, GT04, GT05, GT06, GT09 ,GT10 and GT15.

As a resident at Dunstall Crescent in Bishops Tachbrook I for-see this proposal will have following effect on our community.

1. As Warwick is a historic town, the visual impact when leaving the M40 already looks dreadful with travellers already in this site, which will damage the tourism industry.
 2. The possible pollution threat to the Tachbrook Brook with GT15 being located in near vicinity.
 3. Bishops Tachbrooks schools are already oversubscribed and there is no need to put more undue pressure on the local resources.
 4. Some of these sites are prone to flooding
 5. Lack of employment for the travelling community.
 6. Access to the site could cause further Road traffic collisions with entry and exit leading directly onto a 50 mph road.
- Overall there will be an adverse effect on natural and historic environment, crime could increase, local resources will be stretched and Health and Safety compromised.

Yours Faithfully

Emma Hartley
