Dear Sir / Madam,

I understand Warrick District Council have the task of providing new growth to the area whilst balancing environmental, planning and other objectives. I welcome a local plan based on sound principles providing a solid framework upon which to guide future development to the area. I believe the Preferred Options for the New Local Plan published in June 2012 do not comply with the National Policy Framework and that as a consequence the Local Plan would be found unsound at a Public Enquiry.

I'm pleased Warrick District Council has recognised that the Exceptional Circumstances to develop the Green Belt to the North of Leamington do not exist and therefore the risks of the Local Plan

being found unsound at a public enquiry are reduced.

The new development should be concentrated where there are existing opportunities and infrastructure to support the development.

The revised development strategy fulfils those objectives. I, therefore support the revised development strategy.

Regards,
