Dear Sirs,

I write with regard to the Revised Development Strategy Document.

Hampton Magna is one of the villages being considered for expansion.

We have a general store containing the post office; we have a School which is full to capacity. We have a Railway Station, which has already added more Car Parking spaces because of people travelling from outlying villages, and from Warwick where there is little parking for the station.

People working in Warwick and Leamington have a tortuous drive into these towns caused by the three sets of Traffic Lights into Warwick

● Many of the Secondary-age Children have to catch a bus at about 8:00am in order to get to School in Warwick or Stratford.

I hope that you will consider my views when deciding whether or not to inflict more houses on to a very pleasant 'village'.
