

Consultation
programme
Development
policy Manager,

Dear Consultation manager,
My Comment's re to your
plan to your Development
Strategy for sites for Gypsies
and Travellers,

I think its not a good
Idea indeed, people on home-
choice Home Swap, like me
waiting looking for years and
being left to rot, trying to
get only one bed that in my
Case was on band 2 now band
3, System not fit for purpose
unfair unfair, should be how
long been on list that's fair,

So you want to give
Gypsies and Traveller Special

①
Treatment, immigrants inside the
EU and from outside get
special treatment, yes they
do look around, my mum
lives up Birmingham I see them
more and more, I don't
hate them, just get angry
I was born here, Birmingham
and it's hard to get where
I want to live, bid and immigrants
get it I talk to people and
a lot believe me are getting
angry by the day. I will
vote whip for now on no
way Labour who let 7 millions
in over the years, don't let
get Romanians and Bulgarians,
come you can call about
1 1/2 million to that, not the
figures the government say 37000
what planet are they living
on. Gypsy travellers come,
Prime don't say it does not

Because it does, you want to (3)
give them special treatment
and treat your own people
like crap. by the way
it's not prejudice to talk
about Immigration, by the labor
own words, and the so called
Evolution, by the way it's
Invasion the strain on public
services schools hospitals we
have to units them in care,
strain on jobs, some of
them don't care about english
people they slay us off.

by reading the paper main
one's and local. I think you
are too liberal. in the way
I think.

It should be local government,
Local Housing for Local people
Some councils are doing that
now by the internet.

I hope you are not going to put

them gypsies or travellers (4)
Come in the next to my
rooms House Livington (1st
just at feet gate, I have
Saying up there you can really
get anti social behavior up
there or really people who
line up there Council or
private won't like it one bit
and complain as much like they
get real and come down
to earth.

(I do care it Unfair)
(not fit for purpose)
where's the money coming from
in the world of cut backs
from poor, disabled, etc.

Would make Homes for Local
people, like me waiting on
list, cut sides will invade it's
been happening for thousands of
years, get to the real world.
I like to see you live next door
to them, not enclaves, properties in
bound 3.

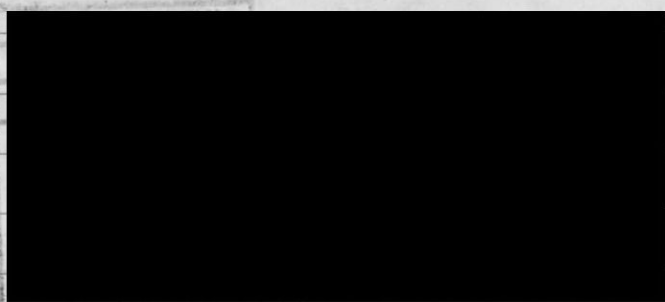

Un Fair unfair unfair
not fit for purpose
unworkable

(5)

hope you got enough police,

I am not prejudice or bitter
against them, got it right
to spend my mind,

Thank for reading,

hope to hear from you
