Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

The GT02 site the council are considering for Gypsy and Traveller site is totally and utterly unsuitable. The local services within the surrounding villages are already stretched with schools full and indeed not always able to accommodate siblings in the same school. The local GP surgeries are also full. The site is situated in a very busy area, the fosse way is a fast main road speed limit 60 miles definitely not ideal for families to be living here. It would be out of the question to provide footpaths no-one would risk using them, likewise waiting at a bus stop with the volume of cars going past at speed. The site would be visible to all around as it sits in a valley and would impact on the area. The land is on a historic hill site

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.

to the proposals on the following grounds -

from medieval times and adjacent to a protected ancient woodland with wildlife and habitat the surrounding environment issues must be taken into consideration in the decision making too.

I understand the proposed site is in green belt land and contradicts Government Policy?
