Part B - Commenting on the Gypsy and Traveller Site Options

If you are commenting on multiple sites you will need to complete a separate sheet for each representation

Sheet of

The policy in the Draft Local Plan will list the criteria by which Gypsy and Traveller sites will be judged for suitability and sustainability. These are the criteria:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Avoiding areas where there is the potential for noise and other disturbance;
- Provision of utilities (running water, toilet facilities, waste disposal, etc);
- Avoiding areas where there could be adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please give your views about site suitability below with reference to this list of criteria.

Which site are you responding to?

Comment

Please set out full details of your objection or representation of support with reference to the criteria above.

- ① This site/s on open agricultural land, would seriously blight the neighbouring villages of Barford and Sherbourne and spoil the quiet enjoyment of their properties of those living in and near to Westham House.
- ② This Grade II agricultural land is classified as "the best and most versatile" and cannot go for development (any) as it is needed for vital food production, now and in the future.
- ③ Views of a gypsy encampment would compromise the character of the neighbouring Conservation Area villages of Barford as well as Sherbourne.
- ④ There are no power, water or sewerage facilities available here.
