- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

- proposed site is on a busy, dangerous road (Fosse Way). Travellers would need to drive to use facilities (doctor, schools, shops) increasing traffic volume.
- local businesses would be damaged - i.e. loss of revenue & jobs (Waters Exhn. Centre, Blackdun Brower) by their proximity. Employment in rural areas is hard to find. The Exhn. Centre attracts many visitors to its specialist, small scale exhibitions.
- the environment already has the threat of HS2. The appearance of a traveller's site would be a blot on the landscape & Shropshire's Country responsible for attracting visitors from all over & a changing revenue to the area.

**Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.**

**Areas of concern could include:**

- Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/ Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/ Flow • Urbanisation.
