Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

to the proposals on the following grounds -

Travellers are known to keep a lot of dogs. This site is dangerous for them dogs due to the really busy main rd, which if dogs are running loose the dangers are to drivers + the animals. There is no surgeries nearby, and as people from the south of the town are being evicted from North of town surgeries, it has already meant an influx of patients, to the South of town surgeries. The travellers will not be screened from the roads and this will have an impact on them as well as the local economy + environment. The travellers will have to access busy roads to go to local shops and schools as they couldn't walk or access local services as there are no pathways on traffic controlled crossings. The roads are dangerous to their children. There are no services or utilities + the impact on local habitats for wildlife will be immense

Do you have any other suggestions for land within Warwick District that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the landowners details below:

The A46 Old Budbrooke way is on ground already with a footprint. The impact to such sites is less horrific as the area has already had a purpose. These are the better sites as it will be reusing the footprints rather than creating new ones.
