Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

OBJECT

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

I object to the suitability of this site at the Walks Exhibition Centre as :-

- 1 We do not have a Doctor's surgery in the village.
- 2 Local roads and Fosse way continually flood after heavy rain.
- 3 This road is not safe for parking, turning, or even driving on if all the traffic warning signs, or accidents and deaths caused, are correct.
- 4 This is an attractive area of countryside, home to considerable flora + fauna, + owing to its position in a valley, could never be screened to sit naturally in the landscape.
- 5 This site would place pressure on local infrastructure, and what few services we have.

Please continue on a separate sheet if necessary

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

- Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/ Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/ Flow • Urbanisation.

to the proposals on the following grounds -

The present business on this site attracts many visitors, and employs many people, their jobs would be lost, should land be taken.

There is no medical centre or any health care facilities in this village.

All roads through and surrounding this site are very busy + dangerous at all times, and more vehicles, large + slow moving would have a serious impact on safety.

Our village is being encroached on continually, please leave some green fields around the village, for our well being + the wild life.

There is no way of screening or landscaping this site to blend in with the surroundings as being in a valley even planting hedges + trees would not cover.

Please continue on a separate sheet if necessary

Do you have any other suggestions for land within Warwick District that you think would be suitable for use as a Gypsy and Traveller site, bearing in mind the criteria for site identification? If so, please give the location and the landowners details below:
