Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

I wish to Register my objections to the Proposed gypsie/ Traveller site GT02.

I object on the following Reasons: ① The site is situated in a predominantly rural area and at the bottom of a valley as such can be seen clearly on approach from all areas it can not be integrated into the landscape without harming the character of the Area.

② The site is situated and accessed via the B4455 Fosse Way. It is approx 50m from the busy junction of the A42 and B4455. The Fosseway at this location is a 60mph speed limit and has been designated a high risk accident route.

③ Warwickshire Exhibition centre is currently located in the middle of the proposed site. Should the site go ahead it will result in the closure of the centre with the loss

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

- Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.

to the proposals on the following grounds - of 400 jobs and a projected loss of £2m to the local economy. This will not promote peaceful and an integrated co-existence between the site and the local community.

(4). The Fosse Way is on a bus route, however the bus stop adjacent to the proposed site is in a dangerous position. It is situated on an unlit overgrown grass verge. The road into the village has no pavement and no lighting. There are no designated cycle lanes. The speed limit until you reach the village is 60mph.

(5). The nearest Doctors Surgery is 3 miles away making car usage essential. This will increase traffic flow through the village. The local Primary School is nearly full to capacity and the proposed 150 new homes proposed in Roadstead Semble will place pressure on the available places.
