Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

Road Safety - All the roads at this junction are already acknowledged as an accident zone, this proposal will only acerbate an existing problem.

The site will become 'a blot on the landscape' When approaching from all directions North, South, East & West you will be able to see the site. There is no way it can be sympathetically created to blend in with the natural environment

The cost of the installation of utilities - power, water, waste disposal etc will be at an enormous cost to the council as there is a very limited

supply in this area.

Doctors, Dentists and Schools are not in close proximity

to the proposals on the following grounds -

I believe it will destroy a thriving business.

A high probability of destroying Flora & Fauna unique to the area.

This may well be a Historic area of great importance e.g. Roman. Will a thorough investigation of the area be made? To include excavation so that a historic i.e. roman area/villa etc will not be destroyed or overlooked.

Please continue on a separate sheet if necessary
