## Criteria by which Gypsy and Traveller's sites will be judged for suitability and sustainability by Warwick District Council:

- Convenient access to a GP surgery, school and public transport; *Not suitable.*
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc); *services not available.*
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and, *The Fosse Way is the most historic road in this country.*
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services; *see below.*
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

**OBJECT**

~~**APPROVE**~~

(Please delete as required.)

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

- The telephone system could not at this time provide lines to this project.
- Mains drainage is not existing at present.

I strongly object to this site being considered for the suggested project because it lacks so many of the basic requirements of which the Council deems vital.

Please continue on a separate sheet if necessary
