## Part B - Commenting on the Gypsy and Traveller Site Options

If you are commenting on multiple sites you will need to complete a separate sheet for each representation

Sheet  of

The policy in the Draft Local Plan will list the criteria by which Gypsy and Traveller sites will be judged for suitability and sustainability. These are the criteria:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Avoiding areas where there is the potential for noise and other disturbance;
- Provision of utilities (running water, toilet facilities, waste disposal, etc);
- Avoiding areas where there could be adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

Please give your views about site suitability below with reference to this list of criteria.

Which site are you responding to?

Please set out full details of your objection or representation of support with reference to the criteria above.

We consider that this land is unsuitable for a Gypsy and Traveller site. It does not meet with the criteria for convenient access to GP surgeries and schools. Indeed, the nearest such facilities all seem to be fully subscribed. In addition there is no public transport within easy walking distance to the site.

Furthermore we consider the use of this site could have a significant detrimental impact on the local community. The site has been owned by the Cubbington Freeholders charity for over 240 years and rental of the site to the County Council for use as a Highways storage depot provides the charity's only source of income. The Cubbington Freeholders provide support and assistance to many Cubbington organizations providing valuable support to the local community. Loss of income from this land would consequently have a huge impact on many local organizations which would be detrimental to peaceful co-existence between the site and the local community.
