District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

Please set out full details of your objection or representation of support with reference to the criteria as outlined by the council.

The site would be unsuitable because:-

- * Access to the road network would be unsafe. It would be situated near a very busy roundabout at the cross roads of the Fosse Way (a high risk travel route) and the Leamington Spa - Southam Rd - A425.
- * There are no pavements in the vicinity to facilitate safe pedestrian access to the nearest bus stops which are situated in the grass verges.
- * The nearest doctor's surgery is approx 5 miles away which has no direct bus service and which is apparently at full patient capacity.
- * If the site were to go ahead there could be strained relationships with the local community as the Exhibition Centre would close resulting in the loss of local employment.
- * The position of the site would totally change the character of the area - it would be difficult to absorb it into the environment as it is now.

Please continue on a separate sheet if necessary

Warwick District Council will judge proposed sites against the nationally accepted criteria. The purpose of the criteria is to seek to meet the requirements of the Gypsy and Travellers community not necessarily local residents, businesses and employment.

Areas of concern could include:

• Agriculture • Animal Welfare • Co-existence • Crime • Ecology and Habitat • Education/Schools • Healthcare/Surgeries • Highways and Safety • Local Economy • Rural Landscape • Services and Utilities • Tourism • Traffic Density/Flow • Urbanisation.

to the proposals on the following grounds -

- * difficulty in accessing healthcare - nearest doctors surgery 5 miles away - apparently full to capacity. No direct bus route
- * Situation would be unsafe. Near a busy roundabout - cross roads with Fosseway (high risk travel route) and A425.
- * No pavements to bus stops which are situated on grass verges therefore unsafe for pedestrians.
- * Would not blend in with the existing landscape - could cause negative reactions from local community.
- * There could possibly be strained relationships between the Gypsy and Traveller community and the local community due to the Exhibition Centre closing and the loss of local employment - co-existence could be difficult.
