Criteria by which Gypsy and Traveller sites should be judged

District Council:

- Convenient access to a GP surgery, school and public transport;
- Avoiding areas with a high risk of flooding;
- Safe access to the road network and provision for parking, turning and servicing on site;
- Provision of utilities (running water, toilet facilities waste disposal etc);
- Avoiding areas where there could be an adverse impact on important features of the natural and historic environment; and,
- Sites which can be integrated into the landscape without harming the character of the area.
- Promotes peaceful and integrated co-existence between the site and the local community;
- Avoids placing undue pressure on local infrastructure and services;
- Reflects the extent to which traditional lifestyles (whereby some travellers live and work from the same location thereby omitting many travel to work journeys) can contribute to sustainability.

IT IS IMPORTANT to comment/object adhering to the above criteria and the council provided form follows that process. It is implied that you should use the WDC form or the response form available online. YOU ARE HOWEVER STILL PERMITTED to respond by writing to the Council's Development Policy Manager or you could choose to use this site specific form prepared for GT 02

to the proposals on the following grounds -

Historic Environment / cont

- The land is next to a major roman road with an historic toll site nearby.

Impact on local Economy

- If plan goes ahead it will result in the closure of the Warwickshire Exhibition Centre.
 - The exhibition Centre employs up to 40 jobs for the local community, It contributes more than 2 million to the local economy each year. Also knock on business would be at risk. (eg local hotels, restaurants, petrol stations etc).
- All of these factors would make this site unsuitable for this plan.
