Dear Sirs

Milverton Blackdown Parish Council understand that new houses need to be built but it is important that great deliberation should take place before the siting of any new development is agreed. Anyone living in the Milverton/Blackdown area is aware that this green belt ~~land~~ was designated for good reasons and the green belt must be allowed to remain as the demarcation between Leamington & Kenilworth.

Development of land to the South of Leamington would have less impact and the Revised Development Strategy must be allowed to remain yours,
