Dear Sir

Proposed Gypsy Sites at Bamwell Farm GT.03 and
Harbury Lane GT04

I wish to object to sites GT03 and 04.

As a regular traveller along this road the junction of the Lane with the Fosse is already dangerous. Because its on the side of a hill you are approaching the junction either up or down to it and the poor visibility and the high speed of the traffic make it dangerous. Also you cant see the oncoming traffic because of tall grass or crash barriers. In addition to the reported accidents there are plenty of "near misses" and many people break the speed limits on both roads.

There are also doubts that the local facilities such as schools, doctors etc could cope as they are oversubscribed. To be fair to those living on the site they should have good bus routes and links to Leamington which would give them a wider choice of facilities, schools and employment opportunities. Some of the other sites have better access, being on a main 'A' road and frequent buses and the flat land will enable a better access to the site for vehicles.

Yours sincerely,

John Elliman
