Re. Development of small houses or bungalows to help elderly people to downsize in local villages.

Why not consider "The Meadows" at Kingswood - where it would be an ideal site? In the past it has been used as riding stables, a builders yard and a garden centre - so there is plenty of room. I have lived here for over 30 years and to my knowledge it is the only building of small houses in the vicinity when the old school closed and the whole site was bought by a local man - which included the playground and parking space to enable eight small houses to be built - which after very much sought after - I considered the house to "morrow"!!

Yours faithfully
