Dear Ms Coldicott

POTENTIAL GYPSY SITES ON BANBURY ROAD AND BARFORD ROAD

We write with regard to the identification of Brookside Willows on Banbury Road as a potential site for gypsies. This location appears entirely inappropriate, being next door to a Grade 1 Listed Parkland and a tourist route into Warwick. The site also has no amenities or infrastructure or public transport available to it.

We also understand it is proposed that the land opposite the entry to our property on the Barford Road. Aside from not wanting such a site to be opposite our entrance (which is in regular use every day) again this seems an inappropriate site. There are no facilities or amenities available, no public transport, and we understand the site is also part required to be used for grazing as it was previously a rubbish dump. It is also a very busy road with traffic often passing at 70mph and there are no footpaths available.

Please let us know if there are other avenues we should be pursuing in order to object to these proposals.
