Dear Sir/Madam,

12526

We really feel strongly that the W.D.C. alternative site, G.T.05 Tachbrook Hill Farm, should not even be considered as a Gypsy & Traveller site, under any circumstances. It is one of the main entrances to Bishops Tachbrook and the proposed alternative site, would completely ruin the landscape and general ambience of our village.

This fertile agricultural land provides valuable grazing for local food production and has done for a long, long time.

The Barbury road / Mallow road junction is a notorious blackspot and has been a scene of many traffic accidents, some fatal. Therefore added traffic from the proposed alternative site would be hideous.

If we must provide G.T.s then Brookside Willows (G.T. alt. 01) appears to be the least intrusive and most cost effective site, that anyone should be pleased to reside at.
