Proposed Gypsy and Traveller Sites.

Dear Sir,

I write concerning the above matter and your website information. I understand that one of the proposals is for a site on the Stratford Road, Warwick adjacent to the Severn Trent site. I cannot find this as one of the options. GT01 to GT20. Surely you should update your website so that people can see all options being considered.

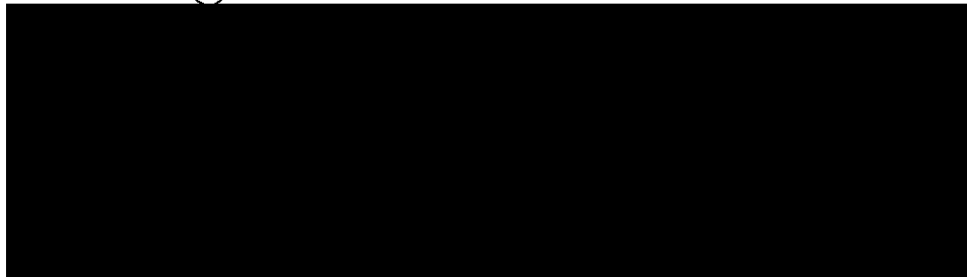

I object strongly to a Gypsy Site in this location as it is far too near to the town and is on green belt land which should stay as such.

I am also horrified to see that GT13 suggests Kites Nest Lane, Beausale. If it has taken years to rid the site of the unlawful setting of this as a traveller camp because

it was unsuitable, why is it now being considered? When in use, it was a disgrace with litter and damage to the surrounding wild area.

I note that a campsite entrance has already been set up on the Bambury Road out of Warnick. Why not choose this location where the travellers will be out of site and away from population?

Yours faithfully,
