The proposed access lane is totally unsuitable, and the turn off in to the road leading to farm track is already dangerous.

The site is unsuitable for human habitation. We live nearby - in the summer the smell from the sewage works can be very pungent - also the noise at that point can be deafening from the motorway - the prevailing wind comes off M40 - if it rains it is quite difficult to live with, even in an ordinary house.

Flooding has happened in the surrounding area -
Continue on a separate sheet if necessary

8. Please set out what modification(s) you consider necessary to make the Plan legally compliant or sound, having regard to the test you have identified at 7. above where this relates to soundness. (Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Seven Tent would need to allow access across their land

The 'cordon sanitaire' does not always work as it is 'Living even nearer than we do would be a dreadful experience.

Nothing can alter the noise from traffic - we have been here nearly 17 years and each year the noise from M40 becomes consistently louder and can be heard all night

The Brook - we have photographs of Kingfishers -
and the area is full of wildlife - I have a long list of birds we have seen.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

9. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

No, I do not wish to participate at the oral examination

Yes, I wish to participate at the oral examination ✓

10. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

Because I am 70 years old, and the prospect of the disruption to my remaining years of life by all the work involved in creating a Business site and/or a gypsy encampment, and the noise that could be produced by both these plans fills me with fear. I was not expecting this and would want

to have my say. I found out about this from a man called Steve at my local gym. We had NO communication from any official body about these proposals.

Please note: This written representation carries the same weight and will be subject to the same scrutiny as oral representations. The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.
