WARWICK DISTRICT COUNCIL

3 9 2014

To the planning Committee

We, would like to protest most strongly, about the proposed Gypsy/Traveller site, what on earth is the reasoning for this? it is well known that when they camped on the racecourse and Hampton road, the whole place was disgusting. Human Waste (they don't believe in toilets) animal mess. their dogs, roaming all over, none that had been vaccinated carrying diseases to responsible dog owners pets. and the rubbish left behind was unbelievable. Will they pay rates to have their site cleaned we doubt it very much so the cost of cleaning will no doubt be down to the rate payers, of the district

Also, it is well known, when they are in an area theft and vandalism goes up. the police are stretched now with all the cars. how are they to cope.

We live in a lovely town the market town with the castle, and other attractions, whats it going to look like, to people from all over the world, coming to visit, coming of the motorway and one of the first sights is a Gypsy Encampment, because thats what it will be. There must be many uses for this land perhaps to benefit the townfolk "ie park and ride especially when Concerts and other events take place, it would pay for itself in a very short time. No doubt there is many more uses. Please think again

Yours
