7. Please give details of why you consider the Proposed Modifications to the Submission Warwick District Local Plan are not legally compliant or are unsound. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Proposed Modifications, please also use this box to set out your comments.

“Exceptional Circumstances” to take Green Belt land north of Milverton for building have not been demonstrated – in fact they are extremely unconvincing.

The proposed development is to help Coventry and its housing needs. Very necessary, but why use land north of Milverton when there is sustainable and adequate land much nearer to Coventry? If Coventry commuters live so far away (in the Milverton district) there will be increased pressure on roads (already congested during the rush hour), and more harmful emissions to damage our environment further. Obviously new roads would have to be built, and this would be damaging too. It is also questionable whether people who want to live and work in Coventry will want to buy or rent property so far away from where they want to be. Furthermore, Green Belt sites on the edge of Coventry have been assessed as being of “lower value” than the Milverton – this has been backed by both WDC and Coventry City Council.

Worst of all, green space – necessary for healthy living and recreation - will be destroyed and replaced by concrete and buildings. We already have flooding problems – they can only get worse once more land is built over.

Places like Leamington, Warwick and Kenilworth depend quite a lot on the tourist industry – which is one of the mainstays of our economy these days. Destroying the countryside nearby will doubtless have a negative effect.

The impact of losing Green Belt land on wildlife will be disastrous, should it be allowed to happen. Even government these days is beginning to realise how important it is for our population to live in a “balanced” environment, where people can live, work and play healthily and happily.

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The Joint Parish Council believes that in order for Modification 14 to become sound, the land north of Milverton should remain in the Green Belt.

It suggests that the development proposed for the land north of Milverton should be reallocated to alternative viable sites nearer to Coventry, which have lower “Green Belt value”, and are capable of delivering the required housing.

I agree wholeheartedly with these two statements.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested changes, as there will not normally be a subsequent opportunity to make further representations. Further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.
