7. Please give details of why you consider the Proposed Modifications to the Submission Warwick District Local Plan are not legally compliant or are unsound. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Proposed Modifications, please also use this box to set out your comments.

The NPPF paragraph 32, states that plans and decisions should take account of whether safe and suitable access to the site can be achieved for all people. We are not aware of any traffic surveys being undertaken to ensure safe access to the proposed sites.

In September 2015, a traffic survey was carried out by the Parish Council at the request of HOTHRA the results of which showed that over 18,000 vehicles a week came through HotH. This damages the quality of life in the village and measures are currently being considered to regulate traffic flow. The proposed additional housing in Hampton Magna (H51 and H27) will add to the volume of traffic and risk destroying the quality of life in our village altogether.

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Consideration must be given to alternative means of access to sites H27 and H51. Our (HOTHRA) proposal would be to build a new road from the A4189, Hampton Road, to the sites which would effectively by pass HotH. This would give better access to the sites and also provide a route for the additional services which woul be required for those dwellings e.g. drainage,water, electricity, telecommunications etc. It would have the added benefit to the residents of Chase Meadow, Warwick, who currently use HotH as a 'rat run' to Warwick Parkway station and to the A46 and A4177.

We suggest a detailed study is undertaken to establilh the safest and most appropriate route for such a new road.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested changes, as there will not normally be a subsequent opportunity to make further representations. Further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

9. If your representation is seeking a change, do you consider it necessary to participate at the oral part of the examination?

No, I do not wish to participate at the oral examination

Yes, I wish to participate at the oral examination

10. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

It may be necessary to clarify some of the points made earlier. Also to convey the strength of feeling of HotH villagers to the additional traffic which may be experienced if the HotH suggestions and not implemented.

Continue on a separate sheet if necessary

Please note: This written representation carries the same weight and will be subject to the same scrutiny as oral representations.
