Yes  No

## 6. If you answered no to question 5.2, do you consider the Proposed Modification is unsound because it is not:

(Please tick)

Positively Prepared:

Justified:

Effective:

Consistent with National Policy:

7. Please give details of why you consider the Proposed Modifications to the Submission Warwick District Local Plan are not legally compliant or are unsound. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Proposed Modifications, please also use this box to set out your comments.

**\*RE site H53 (Brownley Green Lane):**

- The use of green belt land for development goes against government recommendations and is wrong.
- The requirement for a large number of additional houses isn't an 'exceptional circumstance' and should have been planned for more effectively. Deviating from national policy in this way is irreparable, unacceptable & unsustainable.
- The use of this area of green belt land would be detrimental to the ecological diversity of the area, would be harmful for established trees and other wildlife and goes against the sympathetic nature of the current development.
- Development of this area would contribute to urban sprawl towards other dwellings and the natural boundary with the Lane. It would also set a precedent for future development of the adjacent land and poses a privacy issue for residents whose properties overlook the current green belt surrounding Hatton Park.
- Access from Barcheston drive is limited at best: traffic calming measures, current traffic volumes and on street parking all hinder the viability of this as an access route for both residents and construction traffic.
- The proposed access route to the site involves a steep gradient and much of the site's volume would need to be devoted to providing access with a shallow gradient. Development of the site would lead to multiple 'levels' of development which would not be in keeping with the architectural merit of the current site.
- The proposed access route cuts across the newly extended village hall car park and no proposals have been made for this to be moved. The recreational facilities and community orchard next to the hall must not be disturbed.
- No adequate provision has been put forward for schooling, highways, amenity provision and flood mitigation.

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

- Site H53 should be removed from the proposed local plan as it is not justified, effective, or in line with national policy.
- The housing volume of site H53 should be absorbed within the H28 site (which could be expanded to fill the entire plot of 7.8h). The housing density within the H28 site should closely align to that of the rest of the Hatton Park development and include adequate recreational green space. Additionally, the architectural merit of the properties within the site should be in harmony with the rest of the Hatton park development.
- Consideration must be made for the additional traffic servicing site H28 and measures to increase the capacity of the Birmingham Road must be made.

Continue on a separate sheet if necessary

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested changes, as there will not normally be a subsequent opportunity to make further representations. Further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

9. If your representation is seeking a change, do you consider it necessary to participate at the oral part of the examination?

No, I do not wish to participate at the oral examination

Yes, I wish to participate at the oral examination

10. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

I am happy to represent my views in the oral examination should this be deemed to be of value. Having lived in the area for my whole life and having purchased my first property recently at the age of 26, I am a passionate advocate of the area and our local community. I support sustainable and effective local development, but stand by the need for this to be managed responsibly. In this case, I don't perceive the relinquishing of green belt land for site H53 to be necessary or justified as the proposed housing could adequately be absorbed elsewhere within the District.

Continue on a separate sheet if necessary

Please note: This written representation carries the same weight and will be subject to the same scrutiny as oral representations. The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.

#### 11. Declaration
