Mod 8 – Policy DS10 Broad Location of Allocated Housing Sites

These representations should be read in conjunction with our representations on Mod 3 Policy DS4 Spatial Strategy. Crest support the Local Plan's position in that greenfield sites located in sustainable locations are required to meet the overall housing provision for the District which includes the unmet housing need for Coventry City. However, Crest also support the Council's position in that for greenfield sites to be sustainable, it is necessary to identify land for housing currently in the Green Belt close to the built up areas. Crest control land at Lodge Farm (80 ha), Westwood Heath Road which is situated on the edge of Coventry and currently in the Green Belt. The site has consistently been identified for release in Green Belt studies undertaken by the Authority as part of its evidence base for the Local Plan. The site is suitable and available to meet part of the housing needs in the Local Plan and is allocated as Policy H42 in the Local Plan.

Recommendation

Support the identification of green field sites (including land currently within the Green Belt) to meet part of the housing provision.
