7. Please give details of why you consider the Proposed Modifications to the Submission Warwick District Local Plan are not legally compliant or are unsound. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Proposed Modifications, please also use this box to set out your comments.

① Inadequate access for construction traffic to this site. Homes cannot drive through Birchenston Drive due to traffic calming measures AND considerable risk of accident involving other drivers and pedestrians is likely.

② Insufficient local facilities in Hutton Park to support 55 additional households - there is only 1 small shop, no school or health services in the immediate vicinity and those in the local area will be put under increased pressure.

③ The Birmingham Road is already busy at Peak times without construction traffic or potential future residents - thereby increasing likelihood of accidents.

④ Children's play area currently at the Hutton Park Village Hall location will not be a safe location for children to play with the construction traffic & potential future traffic created by 55 new households.

⑤ Inadequate access to the proposed site without removing the current car park at Hutton Park Hall, along with increased noise will be unacceptable.

⑥ Removing this green space adjacent to Hutton Park will be detrimental to the area as will be the damage created by increased volume of traffic through Hutton Park.

Continue on a separate sheet if necessary

8. Please set out what change(s) you consider necessary to make the Proposed Modifications to the Submission Warwick District Local Plan legally compliant or sound, having regard to the test you have identified at Question 5 above where this relates to soundness. You will need to say why this change will make the Local Plan/Sustainability Appraisal legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Any additional housing should be built in areas where the infrastructure & facilities already exist to support increased number of households and traffic - such as in areas closer to employment opportunities, health care facilities, education and leisure services.
