Barcheston Drive already suffers from safety issues due to the width of the road and the traffic calming measures in place. The local bus and waste lorries struggle with access due to the traffic calming measures in place by adding construction lorries, crane transporters and associated vehicles this will only add to this hazard and increase the safety risk to red for the road.

The proposed access to the site is currently the car park entrance next to our Village Hall, Sports Facility and Children's play ground. These are the only recreational places on Hatton Park and would become extremely dangerous should this access be granted .

In order to provide sufficient road infrastructure to counteract the steep gradient additional land would be required, yet there is no mention of this in the local plan. This plan has not been well thought out by the council in terms of soundness.

It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The Oakland Farm site, which was under consideration as a traveller site, together with the remainder of that farm could be used for housing instead, although it is acknowledged this does not address the concerns over increased traffic on the Birmingham Road or lack of public transport infrastructure, schools and other facilities. It does however address the issues of access, as the Birmingham Road is not subject to traffic calming or children's play areas and is currently used by large commercial vehicles.
