Please use this form if you wish to support or object to the Proposed Modifications

### This form has two parts:

Part A – Personal Details
Part B – Your Representations

If your comments relate to more than one proposed Modification you will need to complete a separate Part B of this form for each representation.

This form may be photocopied or alternatively extra forms can be obtained from the Council's offices or places where the Modifications have been made available (see the table below). You can also respond online using the Council's e Consultation System, visit: www.warwickdc.gov.uk/newlocalplan

Please provide your contact details so that we can get in touch with you regarding your representation(s) during the examination period. Your comments (including contact details) cannot be treated as confidential because the Council is required to make them available for public inspection. If your address details change, please inform us in writing. You may withdraw your objection at any time by writing to Warwick District Council, address below.

All forms should be returned by 4.45pm on Friday 22 April 2016

To return this form, please deliver by hand or post to: Development Policy Manager, Development Services, Warwick District Council, Riverside House, Milverton Hill, Learnington Spa, CV32 5QH or email: newlocalplan@warwickdc.gov.uk

#### **OBJECTIONS:**

- 1. Barcheston Drive is too narrow for lorry and heavy plant movements during the construction phase. The bus already struggles to negotiate the traffic calming features, particularly with the presence of parked cars. They may also be obliged to use the grass verges and pathways, presenting a danger to pedestrians and destroying the established walkways and cycle paths.
- 2. Proposed access from the village hall car park is very steep. In order to provide sufficient road infrastructure to counteract the steep gradient additional land above that highlighted in the proposal would need to be acquired. This will impact on the village hall, the neighbouring play area, planted orchard, sports facilities and the number of parking spaces available for the village hall. Additional car parking would also need to be provided to compensate the loss of spaces as the proposed access is through the village hall car park.
- 3. The children's play area would become dangerous as it would be next to an access road and the resultant increase in traffic to the new houses. Appropriate fences etc would need to be put in place to prevent children from running out into the road. Having said this, a playground on the corner of a junction can hardly be described as safe and sensible. The location of the junction is far from ideal.
- 4. The wider infrastructure (Birmingham Road) will struggle to support the additional traffic inevitably generated by the occupiers of 55 homes. At peak times the road is already congested with commuters and parents driving children to and from school.
- 5. There have been a number of fatalities and serious accidents on the Birmingham Road in recent years and an increase in traffic volume will increase the likelihood of these occurring
- 6. From a wider viewpoint the projections for housing need in the region are based on a blip in demand and growth will not necessarily follow the same trajectory, hence we may not need as many houses as forecast. With this in mind, we question the decision to remove the green belt as a result of so called "special circumstances" to support additional housing needs.
- 7. The site is unsustainable environmentally as the lack of local infrastructure (public transport, schools, shops) requires additional car use and therefore does not comply with the National Planning Policy Framework's requirement to secure sustainable development.
- 8. The Local Plan has not identified the necessary infrastructure needed to support the level of new residential development for the sites allocated in the Plan, for example, new schools, health facilities and a better road infrastructure.
