Ref: Proposed release of land from the Green Belt and the proposed  
developments in Old Milverton, North Leamington for housing and Park-and-  
Ride Scheme

Leamington

Dear Sir,

I strongly object to the above proposal for the following reasons:

It is important to maintain this area, as local residents will lose a vital green space, which is currently used for walking, running, cycling and riding.

I have yet to see any concrete evidence to suggest that a Park and Ride service is necessary in this area and as a resident the flood lighting and increased traffic will affect me.

As the proposed development is to support a shortage of housing in Coventry, surely it would be better to be closer to Coventry on a more suitable and sustainable site.
