30th September 2020

Dear Lorna,

Burton Green Neighbourhood Development Plan

Thank you for consulting Highways England on the above-mentioned document.

Highways England is responsible for the operation and maintenance of the Strategic Road Network (SRN) in England, which includes all motorways and trunk roads. The SRN in the district of Warwick consists of the M40 Motorway and the A46 Trunk Road.

We note that the Burton Green Neighbourhood Development Plan (NDP) has been produced to allow the local community to identify priorities and issues within the Parish. Along with this, the NDP allows the community to create policies and plans which seek to improve the area while addressing current and perceived future issues.

Without regards our interests, we note that the Strategic Road Network does not pass through the NDP area itself. In addition, larger developments referenced in the plan have previously been assessed in relation to the Warwick District Local Plan. No new development sites have been identified which are likely to impact on the SRN.

As a result, Highways England is content that the Barton Green NDP does not conflict with our responsibilities to ensure the continued safe operation and functionality of the SRN and we have no further comments to make.

Yours sincerely,

Catherine Townend
Midlands Operations Directorate
