Dev. Policy Manager,  
War. District Council,  
Leamington.

Dear Sir,

Objection to the new local plan.

My husband and I object to the above on the following grounds.

- 1) The roads, infrastructure and the situation of Leamington and Warwick with their rivers and bridges do not allow for such a large increase in traffic.
- 2) The level of growth is too high, without proving a necessity for such a large population increase in this area.
- 3) The area is a tourist attraction and the proposals will impinge on this.

4) With forecasts of food shortages it is ridiculous to build on Grade 2 agricultural land, when other urban brownfield sites are available.

Thank you for reading this.

Yours faithfully,
