Dear Sir

Proposed Woodloes Farm Development Objection

Having only just moved to Warwick we have had quickly acquaint ourselves of what's being proposed . Having studied the options it has become clear that the Woodloes proposal is wrong.

We therefore object to the above being included in the County Housing Plan for the following reasons :

1. The increase in the traffic on Primrose Hill which is heavily used by the rat runners in addition to estate traffic
- 2 Development creep into the greenbelt and beyond to Leek Wotton
3. The loss of mature trees and ancient hedge rows
4. No alternative 'green' transport eg a railway station
5. The impact on the local infrastructure.

Our preferred option is for development be centred on new railway stations which should provide 'green' alternative travel.

Yours faithfully
