Proposed Development on Green Belt Land North Leamington

I was brought up in Old Milverton and am shocked to learn of this proposed development.

This land is green belt and farmland producing valuable crops.

It is an important corner of the countryside used by very many people for recreational purposes, walkers, joggers, cyclers, families at weekends etc.

Surely there is land in south Leamington which would be suitable for housing where the infrastructure is already in place rather than violating this much loved and much enjoyed part of Warwickshire.

Kindly reconsider this very undesirable proposal.
