Preferred Options Response Form

2012

or Official Use	Only		
Ref:			
Rep. Ref.			
			4

Please use this form if you wish to support or object to the Preferred Options version of the new Local Plan.

If you are commenting on multiple sections of the document you will need to complete a separate copy of Part B of this form for each representation.

This form may be photocopied or, alternatively, extra forms can be obtained from the Council's offices or places where the plan has been made available for members of the public. You can also respond online using the LDF Consultation System, visit: www.warwickdc.gov.uk/newlocalplan

Part A - Personal Details

	1. Personal Details	2. Agent's Details (if applicable)

PO4 - Preferred Option: Distribution of Sites for Housing

- Norton Lindsey has been identified as a Category 2 village with a proposed allocation of up to 80 new houses.
- Norton Lindsey does not have the facilities to support the proposed number of homes.
- Norton Lindsey has a poor and narrow road structure through and out of the village and an inevitable increase in traffic will create additional dangers.
- Norton Lindsey enjoys an historic hill top setting with adjacent medieval ridge and furrow fields the village is very sensitive to development due to the prominent location. It is essential that the nature and character of Norton Lindsey is not severely compromised by development which could increase the number of houses by more than 50%.
- Norton Lindsey does not fit in with the suggested approach to the broad location of growth (PO3) due to not fulfilling requirement that:

"Any housing development must be built close to existing services and facilities so that people do not have to travel far to get to schools, shops, leisure facilities or workplaces."

- It should reduce the impact on the environment by both its location and design.
- It should not adversely impact on quality environments and historic settings.

Morron Lindsey SHOULD BE DECLASSIFIED

For Official Use Only

PO10 - Preferred Option: Built Environment

- Building 30-80 houses in Norton Lindsey will not comply with the specified needs as detailed in the booklet to:
 - "Protect the historic environment"
 - Norton Lindsey enjoys an historic hill top setting with adjacent medieval ridge and furrow fields the village is very sensitive to development due to the prominent location. It is essential that the nature and character of Norton Lindsey is not severely compromised by development which could increase the number of houses by more than 50%,
 - > "Design for safe communities and good access to services"
 - Norton Lindsey has a poor road network, a limited number of footpaths within the village and no cycle paths, additional housing requires an infrastructure which does not exist in Norton Lindsey.
 - There are no shops or medical facilities within the village.
 - The school falls within Stratford upon Avon District Council and is fully subscribed.
 - "Design to reduce carbon emissions"
 - The location of Norton Lindsey and the essential use of private vehicles will increase carbon emissions.
 - Norton Lindsey has only 4 buses per week leaving the village, 2 to Stratford and 2 to Solihull.
 - There is no safe route to cycle from the village.

PO12 - Preferred Option: Climate Change

 Norton Lindsey is a small village with extremely limited transport facilities. Most houses have to have two vehicles and an increase in housing would add to carbon emissions and increase the rate of climate change.

 The use of vehicles is essential due to very limited public transport services and no bus services to Warwick or Learnington Spa (only 4 buses leaving the village per week – 2 to Solihull & 2 to Stratford).

No cycle lanes / tracks, dangerous to cycle out of the village.

For Official Use Only
