Villages should not be used as development zones  
Only development for Local village need and in a  
controlled way independently assessed.  
Development in villages does not mean existing or new  
services will be maintained since the 1950's services  
across all village settlement has declined even with growth  
The District is not large enough to accommodate  
Large villages with out spoiling the County qualities

A. Should development be allowed the edges of urban sprawl needs to be carefully control to protect the best assets of the District.

Development of south of Gallows Hills / Europe Way is totally unacceptable both from a landscaping aspect for the approach of historic Warwick & Warwick castle Park but also the impact it will cause on the surrounding settlements and road system.

B. All interested persons and bodies should be consulted on changes to village boundaries not just Parish councils.

There should be no blanket spread of housing across villages each must be viewed individually so not to spoil their character and diminished the quality of village life.

Only single or small groups should be built at any one time and spread over the whole planned period

B. continued:-

To supply the need for smaller homes either for retirement or starting needs small period cottages, etc should not be extended.

D. No development should be allowed in the small remaining countryside. The District is small enough for the countryside to be serviced from existing population points.

Any new development would be more suited to be included with more recent developments and would blend better into the landscape than spoiling <sup>the</sup> more traditional villages. e.g. Matton Hospital, Hampton Magna.

Adequate land for the provision of Affordable housing should be made in any proposed development zones

Only sufficient land to meet the requirements of the commercial needs of the District and not to attract new industry into the District.  
All new development permitted should maximize fully use of the land.

"Development Proposals:-

Protecting important landscape natural & historic is never compatible if the proposed development is solely for commercial gain. Such areas should be removed from the development zone.

The Garden Suburbs principles should not apply if it involves more countryside being taken to full till its design.
