The Development Policy
Manager, Warwick D.C.,
Leamington Spa

Dear Sir,

I am writing to protest
in the strongest possible terms
about the potential plans to
develop & destroy Green Belt
land at Blackdown, nr. Old
Milverton and at Loes Farm
& the vicinity of Guy's Cliffe,

Apart from ignoring
the present financial and
economic crises in terms of

affordability and overloading the local infrastructure, especially in terms of Roads & Traffic volumes, the schemes make a chronic nonsense of previous long-standing legislative protection dating from the 1950's.

Its widely reported, drastic curtailments of Greenbelt land were promoted after cliques of developers paid 100,000's of Pounds into the funds of a certain political party furthermore.

Notions of creeping sprawl & coalescence make such matters even worse and in this context attention should be concentrated upon the effects of increasing

II

attenuation & destruction of farmland at a time of often increasing world-wide food shortages & price increases as exemplified most recently in the U.S. Prairies & wheat belts.

Reckless projects motivated by myopic stupidity & greed should be deplored but recognising some housing may well be required it should be concentrated South of Leamington and not destroy designated land & countryside.

I would therefore urge you & the W.D.C. to reject such deleterious

proposals.

Yours faithfully,
