Support

Object

Please set out full details of your objection or representation of support. If objecting, please set out what changes could be made to resolve your objection (Use a separate sheet if necessary).

I object to the above development for the following reasons:-

- a) Erosion of green belt.
- b) Local roads cannot cope with existing traffic flows, new housing would cause further congestion.
- c) Woodloes Lane is an unadopted lane/footpath/bridleway. This possible development will obviously attract much extra non legitimate traffic that will greatly wear the surface of a lane that is privately maintained and paid for by some residents of the Lane.
- d) Ecological Impact.

* I wish to make a formal request that Warwick District Council consult appropriately with Natural England during the planning process in relation to landscape and ecology, as we feel this site is not appropriate for housing development.

I believe due to the quality and importance of this green field site, neither the current Plan or any change to same would be appropriate. The site therefore should be left completely as is.
