Dear Sir, I object most strongly to the proposal to bring green belt land into development land for residential and/or other uses in North Leamington Spa strictly on planning grounds.

Such land has hitherto been jealously guarded as between Leamington and Leamington as a buffer and to release such is inexcusable. The whole point about green land that it is to be preserved. I do not wish to see the two towns come closer to becoming one.

Please record my strongest opposition.

Yours faithfully

P.S. Any councillor supporting the suggestion would lose his/her and their party's vote permanently.
